<u>OUTLOT/EXCESS LAND</u>			<u>SETBACKS</u> Minimum building setbacks for each property				<u>ZONING</u> Current zoning
Lot #	Size (in Acres)	Square footage	Front	Left Side	Right Side	Back	Zoning
#1	0.88 AC	38,333	5'	10'	10'	5'	C-2 Commercial
#2	0.87 AC	37,897	5'	10'	10'	5'	C-2 Commercial

ZONING

1. Is there an Overlay District, PUD, etc. that impacts the development of the outlot/excess land?

No

2. If yes, please describe:

Not Applicable.

3. What Jurisdiction is the property in?

City of Ponchatoula, Louisiana

4. Is a restaurant permitted?

Yes

5. Is patio seating permitted?

Yes

6. Is there a restriction prohibiting a drive thru (restaurant, bank, etc.)?

No

7. Please add any additional information/comments that impact the outlot/excess land regarding zoning:

PARKING REQUIREMENTS:

1. Wal-Mart's required parking ratio:

Restaurant	15 / 1,000
Retail	5 / 1,000

2. Is the City or County's parking requirement greater than Wal-Mart's

No

If Yes, what is the requirement?

Restaurant	1/100
Retail	1/200

SIGNAGE:

1. What type of signage is allowed for the outlots per local codes and/or ordinances?

Pylon

2. If other, please define:

Not Applicable.

3. What is the maximum height allowed for the signage?

No freestanding signs shall exceed 15' in height.

4. What is the maximum square footage allowed for the signage?

Maximum face area is 120 SF, with aggregate 240 SF for two sided signs.

5. Explain how the square footage is calculated:

The size of the sign shall be equal to half of the total street frontage(SF) of the premises it's located in. Max. 120 SF and 240 SF for two sided.

6. If Other or No signage is permitted explain why and give options to change the signage regulations:

Not applicable.

7. Is roof signage permitted?

No

8. What is the maximum size?

Not applicable.

9. Are wall logo's and/or signs permitted?

Yes

10. Is Neon signage permitted?

No

11. How long is the variance process for outlot signage and what is required?

Variance process is typically a 2 month process that requires a variance application and associated plans. A variance for Walmart's signage to exceed the maximum City allowed height was requested and denied.

12. Describe all reviews, hearings, variances and general requirements known at this time:

Planning Commission Public Hearing is required for recommendation and then a Council Public Hearing is required for final approval.

PLATTING

1. Is the property (including the outlots/excess land) required to be platted?

Yes

- 1a. If no please explain:

- 1b. If yes, has the plat been recorded?

Yes

- 1c. What is the book, page or volume?

Book 1289, Page 467

- 1d. What was the date it was recorded?

8/15/2012

2. If the property has not been platted, please describe the process including who is responsible for the platting and timeframe for completion.

Not applicable.

****Note: If platting is not required, a metes and bounds legal description for each parcel should be forwarded to the respective Wal-Mart Land Development Manager as soon as possible.**

STREET/HIGHWAY ACCESS AND TRAFFIC STUDY:

1. Who has Jurisdiction on this site?
2. Will the Jurisdiction allow direct access and/or curbcuts to the main street or highway?
3. If there is a concrete median in front of the property, will the Jurisdiction allow it to be cut?

Louisiana DOTD (LaDOTD)

No

No

****Note: Wal-Mart does not typically allow purchaser's direct access and/or curbcuts to the main street or highway. Access to the outlot/excess land is granted through the Wal-Mart access drive!**

4. Are there any future highway/street improvements anticipated that would impact the outlot/excess land?

Yes

- 4a. If yes, please describe along with the timeframe and location:

Upon construction of the Walmart, additional improvements will include: Widening of Campbell Ln., a traffic light at Hwy 51/Campbell Ln., and a northbound right turn lane into the WM property.

5. Are sidewalks required on the outlot/excess land?

No

- 5a. If yes, what type and size:

Not applicable.

6. Was a traffic study performed for the overall project?

Yes

- 6a. If yes, was the outlot(s)/excess land included?

Yes

- 6b. What was the estimated traffic count, peak hour trips, total trips, proposed use, etc. for each parcel?

Outlot #1 - Proposed in study as Fast Food - 126 entering in the AM and 121 exiting in the AM/ 88 entering in the AM and 82 exiting in the PM.

Outlot #2 - Proposed in study as Fast Food - 126 entering in the AM and 121 exiting in the AM/ 88

entering in the AM and 82 exiting in the PM.

6c. Will an additional traffic study be required for each purchaser?

No

6d. If yes, please explain why and any requirements including applicable timeframes:

Not applicable.

6e. Does the traffic study, trips, etc. have an expiration date?

No

6f. If yes, please provide the expiration date and any other important information:

Not applicable.

UTILITIES:

Water

1. Is water stubbed to the outlot(s)?
 - 1a. If not, where is it located?
2. Is water stubbed to the excess land?
 - 2a. If not, where is it located?
3. Who has Jurisdiction of the water line?
4. What is the size of the water main?
5. What is the normal pressure?
6. Is there a Tap Fee?
7. Is there a Meter Fee?
8. Can the hose bibs & irrigation be on a separate meter?
9. What is the size of the line required?
10. Are backflow preventer valves required for fire sprinkler lines?
11. Is the water line located in an existing easement?
12. Is there a current moratorium or a chance for one in the future?
13. Please add any additional information/comments regarding water:

No

6. Is a grease trap required for a restaurant? **Yes**
7. Is there a Tap Fee? **No**
8. Are tap fees based on water useage? **No**
9. Is the tap to be made by the city or a local plumber? **Local Plumber**
10. Are there any special assessments? **No**
11. Is there a current moratorium or a chance for one in the future? **No**
12. Is the sanitary sewer line located in an existing easement? **Yes**
13. If sanitary sewer is not available, can a septic system be used? **N/A**

13a. What type?

N/A

13b. Additional Comments:

N/A

14. Can the septic field be paved over?

N/A

15. Has a percolation test been performed?

N/A

15a. When?

N/A

15b. What were the results? (1' in 30 minutes is required for a restaurant)

N/A

15c. If the test did not meet the above requirements, what are the alternative solutions?

N/A

****Note: Purchaser is responsible to perform their own percolation test on the outlot/excess land if a septic system is required.**

16. Please add any additional information/comments regarding sanitary sewer:

Outlots will need to connect to the City's sewer system. The new manhole and 6" stubouts will be constructed with the Subercenter construction by Walmart's General Contractor.

Storm Sewer:

1. Is storm sewer stubbed to the outlot?

Yes

2. Is storm sewer stubbed to the excess land?

N/A

3. If not, please explain how the storm sewer drainage will be addressed for each outlot/excess land:

Not Applicable.

4. Has Wal-Mart's detention facility been sized to accept the drainage?	Yes
5. Is the Wal-Mart detention pond encroaching on or included within the outlot/excess land property line?	No
6. Who has the Jurisdiction of the storm sewer?	Maintained by Walmart
7. What is the size of the storm sewer?	24" RCPA
8. What is the depth?	3.81 to pipe invert
9. What is the tap fee?	Not Applicable
10. Are catch basins required?	Yes
11. Is the storm sewer located in an existing easement?	No
12. Please add any additional information/comments regarding storm sewer:	The storm sewer from the outlots will be routed to the Walmart detention pond. The pond is adequately sized for the developed outlots. The storm sewer system on Walmart's property is privately maintained by Walmart.

****Note: Purchaser will have to comply fully with any federal, state or local laws, regulations, ordinances, permits or other authorizations or approvals or other requirements relating to storm water discharges or the control or erosion or sediment discharges from construction projects, including but not limited to the Clean Water Act, 33 U.S.C.-1251 et seq., and the Storm Water General Permit for Discharges associated with Construction Activities (collectively the "Storm Water Requirements") including without limitation preparing a Storm Water Pollution Prevention Plan (if applicable) to avoid negatively impacting any erosion or sediment controls during earth-disturbing activities, if any.**

Electric

1. Is electric stubbed to the outlot?	No
1a. If not, where is it located?	Service Available at the ROW
2. Is electric stubbed to the excess land?	N/A
2a. If not, where is it located?	Not Applicable
3. Is it overhead or underground?	Overhead
4. What is the voltage?	13.8KV, single phase and 23.9KV, three phase
5. What is the phase?	1 phase & 3 phase, including 240V, 208V, 480V
6. What is the wire?	336ACSR. Customer size based on load
7. Who has Jurisdiction of the electricity?	Entergy Electric
8. Is underground service required?	No
8a. If yes, will the power company bring conduit and wire to the transformer and/or building?	No
Not Applicable.	
8b. Is there a standard cost per LF for the installation?	Confirm w/ Power Company. Varies on load.
8c. Transformer location:	Confirm location with Power Company
8d. Can the outlot/excess land be serviced with either a pole mounted or pad mounted transformer	Pad Mounted
9. Is the primary service connected to the existing transformer?	No
9a. Are there any service charges or connection fees?	Yes

9b. What is the cost?

Confirm with Power Company

10. Is the electric located in an existing easement?

No

11. Please add any additional information/comments regarding electric:

--

Gas

1. Is gas stubbed to the outlot?

No

1a. If not, where is it located?

Service Available at the ROW / W. of Hwy. 51

2. Is gas stubbed to the excess land?

N/A

2a. If not, where is it located?

Not Applicable

3. What is the maximum amount available?

No maximum limit

4. Who has Jurisdiction of the gas line?

Atmos Energy

5. What type of commitment will the gas company give?

Gas company will tap and install line.

6. Will the gas company bring the line to the building?

Yes

6a. What is the estimated cost to do so?

\$900 for 100 Linear Feet

6b. What is the size of the gas line?

3/4" Dia. Polyethylene Service Line.

6c. What is the pressure of the gas line?

75-90 PSI

6d. What is the BTU/CF rating?

Contact Atmos Energy for request.

6e. What is the specific gravity?

0.6

6f. Is a meter fee required?

No

7. Is the gas located in an existing easement?

No

8. Please add any additional information/comments regarding gas:

There may be a deposit charged to the billing account and that will be based on usage and credit history, but Atmos Energy does not have meter fees.

Telephone

1. Is telephone stubbed to the outlot?

No

1a. If not, where is it located?

Service Available at the ROW

2. Is telephone stubbed to the excess land?

N/A

2a. If not, where is it located?

Not Applicable

3. Is under ground service required?

Yes

4. Who is responsible for bringing telephone lines to the building?

AT&T - The Dev. resp. for conduits under pave.

5. Is the telephone located in an existing easement?

No

6. Please add any additional information/comments regarding telephone:

--

FEES:

1. Are there any unusually expensive fees or assessments relating to the future development of this property?

No

2. If yes, please describe in detail and attach a schedule if available:

Not Applicable

BUILDING CODES:

1. What are the building codes by which the architectural plans must comply with on the outlot/excess land?

2003 International Building Code (IBC), 2003 International Fire Code (IFC), 2003 International Mechanical Code (IMC), 2011 International Plumbing Code (IPC), 2011 National Electrical Code (NEC), 2009 National Fire Prevention Code (NFPA)

- 1a. What is the date they were adopted:

As noted above.

2. What is the building permit fee schedule?

See attached document.

3. Is the outlot/excess land located in a fire zone or district?

No

4. Are there any special fire department requirements in addition to standard plans?

No

SITE / LANDSCAPING:

1. Is there a landscaping ordinance in place?

Yes

2. Is there any special lighting requirements?

Yes

- 2a. If yes, please describe:

No parking lot lighting shall be taller than 25 feet and shall be placed and shielded so that light is focused downward.

3. What type of solid waste disposal is permitted?

- 3a. Compaction:

Yes

- 3b. Bulk pick up:

Yes

- 3c. Front loader:

Yes

- 3d. Side loader:

Yes

- 3e. Rear loader:

Yes

- 3f. Who has the Jurisdiction of solid waste:

City for Curbside, Private for Dumpster pick-up

- 3g. Is this adequate for Jurisdiction?

Yes

- 3h. Is a drain required in the trash area?

Yes

- 3i. Are hot and cold water hose bibs required in the trash area?

Yes

****Note: Wal-Mart requires a masonry trash enclosure for compactor, dumpster.**

SOILS / ENVIRONMENTAL:

1. Was the outlot(s) rough graded?	Yes
2. Was it compacted to Wal-Mart standard specifications?	Yes
3. Was the excess land rough graded, if applicable?	N/A
4. Was it compacted to Wal-Mart's specs?	Yes
5. Did the Phase 1 Environmental report indicate contamination?	No
3a. Report prepared by:	Professional Service Industries, Inc. (PSI)
3b. Dated:	10/27/2011, Updated on 8/14/2012, and 2/4/2013
3c. If yes, was the contamination located in close proximity to or within the outlot/excess land?	No
3d. If yes, was the contamination remediated as part of the overall project?	No
3e. Please provide any additional information/comments regarding the contamination:	Not applicable

6. Is any portion of the outlot/excess land located in a flood plan and/or wetland area?

6a. If yes, please describe:

Site is located outside of the 100-yr floodplain. However, a drainage lateral runs SE across the length of the property. It was determined by the US Army Corp of Engineers to consist of jurisdictional Other Waters of the State. Since this drainage lateral will be filled and relocated during construction, a Wetlands Permit was obtained by Walmart. A portion of this drainage ditch is

TRAFFIC:

1. Average Daily Traffic:	Highway 51	
	8,867	v.p.d.
	3.2 million	(year)

Civil Consultant: Please add any information and/or comments that you can think impact the development and/or title of the outlot/excess land:

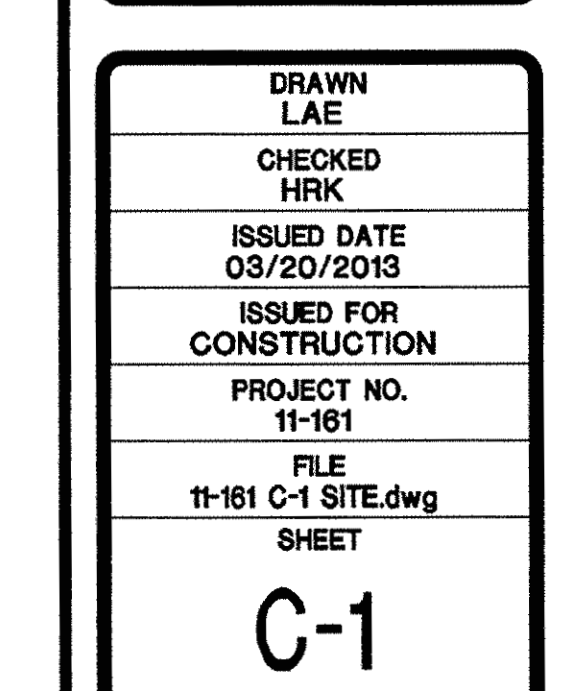

An onsite Drainage servitude to the Tangipahoa Consolidated Gravity Drainage District #1 is required over the relocated drainage lateral. This servitude currently encroaches over the northeast corner of Outlot #1. The executed servitude agreement is attached.

The requirements for filling the Walmart site included stripping a minimum of 24 inches of existing topsoil and silty material prior to placing and compacting fill material. The areas of the outlot that were filled as

The purpose of this "Fact Sheet" is to provide general information regarding the subject property. It is the prospective purchaser's obligation to perform the necessary due diligence to insure that the property is capable of meeting the intended use.
